30 January, 2024

Border Target Operating Model - 31st January 2024 Guidance

31 January 2024 BTOM Guidance

 Ahead of the introduction of health certification on imports of medium risk animal products, plants, plant products and high risk food (and feed) of non-animal origin from the EU at 00:01 on 31st January 2024, please find some important guidance for businesses.

Updates inside

- **PDF Certificates (from 31st January 2024)**
- **Get Ready for new CHED import notifications from 31 January 2024**
- **DEFRA Guidance**
- **Animal & Plant Health Agency (APHA) Updated contact info**
- **Helplines**

PDF Certificates (from 31st January 2024)

GB authorities encourage the use of a digitally signed and verifiable GB export health certificate (EHC) in place of the paper version of the certificate. We will accept verifiable PDF certificates from TRACES and other EU/EFTA MS systems listed on GOV UK.

Steps to Take

The exporter must create the EHC in the system, ensure it has been digitally signed by the competent authority in the exporting country and download the EHC as a PDF format document.

The exporter needs to send the PDF to the person submitting the import notification so that it can be attached to the notification.

Where a verifiable PDF certificate cannot be provided by the EU or EFTA country exporting the goods, and a paper copy is used, a scanned copy must be uploaded to IPAFFS and the competent authority must send the original paper certificate to accompany the consignment. The scanned copy of the certificate must include any schedules and accompanying documents that are certified alongside the health certificate.

Get Ready for new CHED import notifications from 31 January 2024

From 31 January 2024 when you log into the Import of Products, Animals, Food and Feed System ([IPAFFS](#)) system, you will be prompted to complete the Common Health Entry Document (CHED) Part 1 import notification, in place of the current IMP notification for EU imports of Products of Animal Origin (POAO) animal by-products and germinal products, and High Risk Food and Feed of Non-Animal Origin (HRFNAO) to/via GB.

This will align with the CHED Part 1 import notification currently made for such products into GB from non-EU countries.

The next time you create and submit an import notification on IPAFFS from 12.01am on 31 January 2024, you will be prompted to complete the CHED Part 1 import notification, in place of the current IMP.

Be ready to correctly submit your pre-notification in IPAFFS:

- [Click here](#) to watch the webinar recording for Importing HRFNAO (High Risk Food and Feed Not of Animal Origin) via the EU to GB: the new CHED Part 1 notification
- [Click here](#) to watch the webinar recording for Importing animal products from the EU to GB: New CHED Part 1 notification or read our [guidance](#) in Import Notifications

DEFRA Guidance - New import controls are coming on 31 January

Get ready for the changes to SPS import controls for EU/EFTA imports to Great Britain

What changes are coming on 31 January 2024?

- The introduction of health certification on imports from the EU/EFTA of medium risk animal products, plants and plant products.
- The introduction of health certification on imports of high-risk food and feed of non-animal origin via the EU/EFTA.
- The introduction of import notifications for EU/EFTA products (ie not [Qualifying Northern Irish Goods](#)) from the island of Ireland to Great Britain.

- The introduction of the Common Health Entry Document (CHED) import notification in place of the IMP for import notifications of EU/EFTA imports of Products of Animal Origin (POAO) and for High Risk Food and Feed of Non-Animal Origin (HRFNAO) imported into GB via the EU/EFTA.

Prepare for the changes that are coming:

1. Know your risk-category – [use the online guidance to find the risk category of your commodity](#)
2. Ensure that your EU supply chain is preparing to provide you with health certificates and/or [phytosanitary certificates](#).

- From 31st January 2024, GB authorities encourage the use of a digitally signed and verifiable GB export health certificate (EHC) in place of the paper version of the certificate for live animals and Products of Animal Origin (POAO) imports from EU and EFTA countries where the PDF health certificate can be electronically verified. We will accept verifiable PDF certificates from TRACES and other EU/EFTA MS systems [listed on GOV UK](#).

Animal & Plant Health Agency (APHA) Contact info

When?	Who?	How?	Times
